The Old Harbour, the war indemnity schooner Vega and the galeas Jacobstads Wapen

Gamla hamn (The Old Harbour) and Kittholmen are situated about a kilometre from the town centre. The harbour of Jakobstad was located here until the mid-19th century, with a thriving industry around the important maritime trade. Today the old harbour area is primarily a popular recreational area with a beach, beautiful forest, small boat marina, and with history present in the red painted traditional boat houses and The Shipyard with the galeas Jacobstads Wapen and the war indemnity schooner Vega.
